Introductory paragraph

As a property owner, tenant or person who has requested notice, please be advised that the City of Any Town Solid Waste Local Enforcement Agency (LEA) will be holding an informational public hearing in compliance with AB1497 regarding a proposed revision to the Solid Waste Facility Permit for the Mighty Fine Landfill. The LEA is certified by the California Integrated Waste Management Board to enforce state laws and regulations at solid waste sites within the City of Any Town, including all active and closed landfills.

Description of project, EA's preliminary determination, date EA accepted permit

Description of Project and LEA's Preliminary Determination

Mighty Fine Landfill is an approximately 450-acre existing landfill site located at 1234 Hollywood Boulevard in the East Community Plan area approximately one mile north of Highway 25 and approximately a mile west of the City of Revenue. On June 23, 2006, the LEA accepted for review a Solid Waste Facility Permit (SWFP) application package from Mighty Fine Landfill, Inc. requesting a change in landfilling hours. The proposed revision to SWFP # 00-AA-0001 would allow landfilling to begin at 6:00 AM rather than at 7:00 AM as currently permitted. The purpose of the change is to minimize the impact of truck traffic during the morning rush hour. The change in landfilling hours is the only operational change requested to the SWFP under consideration at this time. The SWFP will also be updated to reflect current design documents and capacity calculations. The LEA's preliminary determination is that the proposed permit revision be approved. **The proposed revision to the SWFP would NOT allow an increase in tonnage, traffic, or expansion of the landfill.**

The land development permits to allow the proposed SWFP revision were approved by the City of Any Town's City Council on April 9, 2006. A Mitigated Negative Declaration (LDR No. 00-0777) was prepared for that project in conformance with the California Environmental Quality Act (CEQA) and certified by City Council on April 9, 2006. The proposed revision to the SWFP to allow landfilling to begin at 6:00 AM rather than 7:00 AM was addressed in that document. No new or additional environmental issues have been identified with the requested SWFP revision.

Purpose of the public informational meeting

Purpose of the Meeting

This Public Hearing is for any interested parties to learn more about the proposed permit revision and to provide comments to the LEA regarding the proposed action. The decision to issue or not to issue the SWFP (revision, modified, new) must be made by the LEA within 120 days of the date the application was deemed complete as required by Statute. Prior to issuance of the SWFP, the LEA must request and receive concurrence from the California Integrated Waste Management Board (CIWMB). If you wish to be notified of the CIWMB meeting, please notify the LEA in writing no later than July 30, 2006.
